

## 15 Appendix E, Place Names

This is an index to all the place names used on the maps in Chapter 8 and 9. The names in Greenlandic are listed both according to the new orthography and to the old. The new was introduced in 1973, however, the old is still used in many contexts, as for example on the geodetic maps. Some place names also have a name in Danish, which are listed too. Some place names only have a name in Danish and are listed at the end of the index. The positions listed are the positions of the names on the maps. If the place name occurs on several map-sheets, it is listed once for each map-sheet.

Greenlandic (new)	Greenlandic (old)	Danish	Map sheet	Latitude	Longitude
Akia	Akia	Nordlandet	6401	64°17'	51°55'
